

SOUTHWIRE® HYBRID POWER/FIBER CABLE

WE LISTENED:

Finding reliable cable to simultaneously provide both power and data connectivity can be a challenging process. Not to mention, hybrid fiber cable is a design requirement of top tier carriers in the United States.

THE SOLUTION:

Made in the USA from the highest quality copper with a 75-year proven history in copper conductor production, Southwire's Hybrid Power/Fiber Cable is designed to deploy components of both power and data up a tower in one assembly.

APPLICATIONS AND FEATURES:

- Ideal for applications including High Power 5G Radio, Cloud-RAN (C-RAN), and Small Cell 5G Deployments
- Standard or LIW conductor configurations available
- Featuring a copper tape shield
- Bulk cable or fully terminated assemblies
